Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figures 1, 2a, 2b, and 2c should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being fully anticipated by Migdal et al (6,205,243).

Claims 1-18 are read on the teachings of Migdal et al. Migdal et al discloses a system and method for rapid shape digitizing and adaptive mesh generation comprises one or more illuminating sources (100, 102), one or more image sensors (118), a processor (104), the surface topography is computed on the basis of the patterned

image data, the known separation between the illumination sources and the image sensors (see figures 1, 2, 5A and claim 16, lines 8-21).

Response to Arguments

4. Applicant's arguments filed 4/13/04 have been fully considered but they are not persuasive.

a. Applicant agreed that "Figures 1, 2a, 2b and 2c" should be designated as – Prior Art--; however, there was no drawing correction was found. Applicant is preferred to 37 CFR 1.84 or MPEP 714 for amendment to drawings.

b. Claims 1-18 are rejected under 35 U.S.C 102 (e) because the present invention was described in a patent issued to Migdal et al. All the limitations cited in claims 1-18 are read from Migdal et al.

c. With respect to the applicant's remarks, applicant argues on the advantages of the present invention compare to the invention of Migdal et al. For example, applicant compares that "My invention has no moving parts", however, the present claims do not show this limitation. Claims must be examined on the basis of what they say, absent limitations may not be considered to be present.

d. Applicant must clearly point out the patentable novelty which he thinks the claims present in view of the state of the art disclosed by the references cited.

e. With respect to the present application, in order to expedite the prosecution of the application, applicant is suggested to hire an attorney to work on this case.

f. Enclosed is a copy of a section of MPEP that could help applicant in the next response to this Office action.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
